Seminar Room

Introduction
This document introduces users to basic system operation procedures using the touch screen.

Start-up
The touch screen remains powered on indefinitely. If left unattended, the touch screen will revert to power-save mode and the screen will go blank.

To begin, simply touch the screen’s surface and the Welcome page will load.

Press the screen again to load the system’s Main Page to turn on the system.

Keyboard, mouse and microphones
Keyboard, mouse and microphones are kept in the drawer of the white cupboard.

1. Turn the keyboard on via the on/off button located on the back of the keyboard.
2. Turn the lapel microphone on via the on/off button located on the front.

Volume
The room volume level can be adjusted at any time by using the Volume column controls. For convenience, the volume controls are located on the right side of the screen.

Press the Volume icons to adjust the volume level.

Press the Mute icon to turn off the sound.
Smart Board Tab

Personal Computer (PC) Presentation

The audio-visual system is equipped to display computer presentations from the PC located in the equipment rack.

PC Presentation Procedure

1. Select the Smart Board tab or the Projector tab.
2. Select the PC icon.
3. Press the None icon to blank the display.
4. To connect a memory stick, use the USB hub located in the white cupboard draw.

Laptop / Document Camera Presentation

The audio-visual system is equipped with an HDMI input allowing the user to connect a laptop computer or document camera.

Laptop / Document Camera Presentation Procedure

1. Select the Smart Board tab or the Projector tab.
2. Select the Laptop / Doc Cam icon.
3. Press the None icon to blank the display.

Connecting a Laptop/ Document Camera

1. Connect a laptop/document camera to the AV console rack input using an HDMI cable.
2. Turn on the laptop / document camera.
3. Configure the laptop to direct the video image to an external video display. Switching to an external display is usually done using one of the Function keys (E.g. Function + F3 or F5). Consult the laptop’s help files for more information.
4. Use the document camera controls to operate the document camera.
**Wireless Presentation**
The audio-visual system is equipped with a wireless presenter to allow the user to present using a wireless laptop computer.

**Downloading Wireless Presenter Software (only required the first time)**

See Instruction sheet: - *Wireless Presenter*

**iPad Presentation**
The audio-visual system allows the user to connect an Apple iPad for presentation. The iPad is only projected onto the Smart Board.

**iPad Presentation Procedure**
1. Select the *Smart Board* tab
2. Select the *iPad* icon.
3. Select the *Epson iProjection* icon located on the iPad.

See Instruction sheet: -
*Epson iProjection – Apple iPhone and iPad*

**Projector Tab**
Presentations can be displayed via the roof mounted projector by selecting the input on the *Projector* tab.

For example:-
1. Select the *Smart Board* tab for the input to display the presentation on the Smart board.
2. Select the *Projector* tab for the input to display the presentation on the projector.
Follow Smart Board Presentation Procedure

The roof mounted projector can be set to follow the input displayed via the Smart Board.

1. Select the Projector tab.
2. Select the Follow Smart Board icon.
3. Press the None icon to blank the display.

Video Conferencing

Prerequisite

The room has been booked with FAS and they were notified at the time of making the booking that video conferencing was required.

See Instructions sheet: Portable Video Conference Unit

Shutdown

To shutdown the audio-visual system

1. Press the Shutdown icon located on the top right of the touch screen. A pop-up screen will appear.

To turn off the system

2. Press the Yes icon.
3. Press the No icon to return to the audio-visual system.

NOTE: Letting the system go to sleep by itself only powers down the touch panel screen, it does not turn off the audio-visual equipment. To turn off the equipment, shutdown the system properly using the touch screen panel. This will extend the life of the audio-visual equipment.

To ensure the equipment is ready for use by the next lecturer/presenter

1. Log off the House PC only, do not shutdown/turn off the House PC.
2. Turn the keyboard off via the on/off button located on the back of the keyboard
3. Dock the mouse back into the docking station.
4. Dock the lapel microphone back into the docking station lining up the recharging so the charge lights are activated.
